Compliment Slip

BLUE = Bleed (215mm x 105mm)

Your background image, colour, texture etc needs to go all the way up to this line.

PINK = Trim (210mm x 99mm)

This is where your compliment slip will be trimmed to.
Failure to 'bleed' passed this line may result in a white border when cut down.

YELLOW = Margin (203mm x 92.3mm)

You need to keep your text, logos and anything you don't want getting trimmed off inside this mark.
Keeping within the margin, you can get a better visual idea should there be any movements when being trimmed.

NOTE-

**All artwork must be sent in PDF format, CMYK, images minimum of 300dpi.
All fonts outlined/embedded**
